

Phase-1

By: Nikita Yadav and Alonso Ortiz

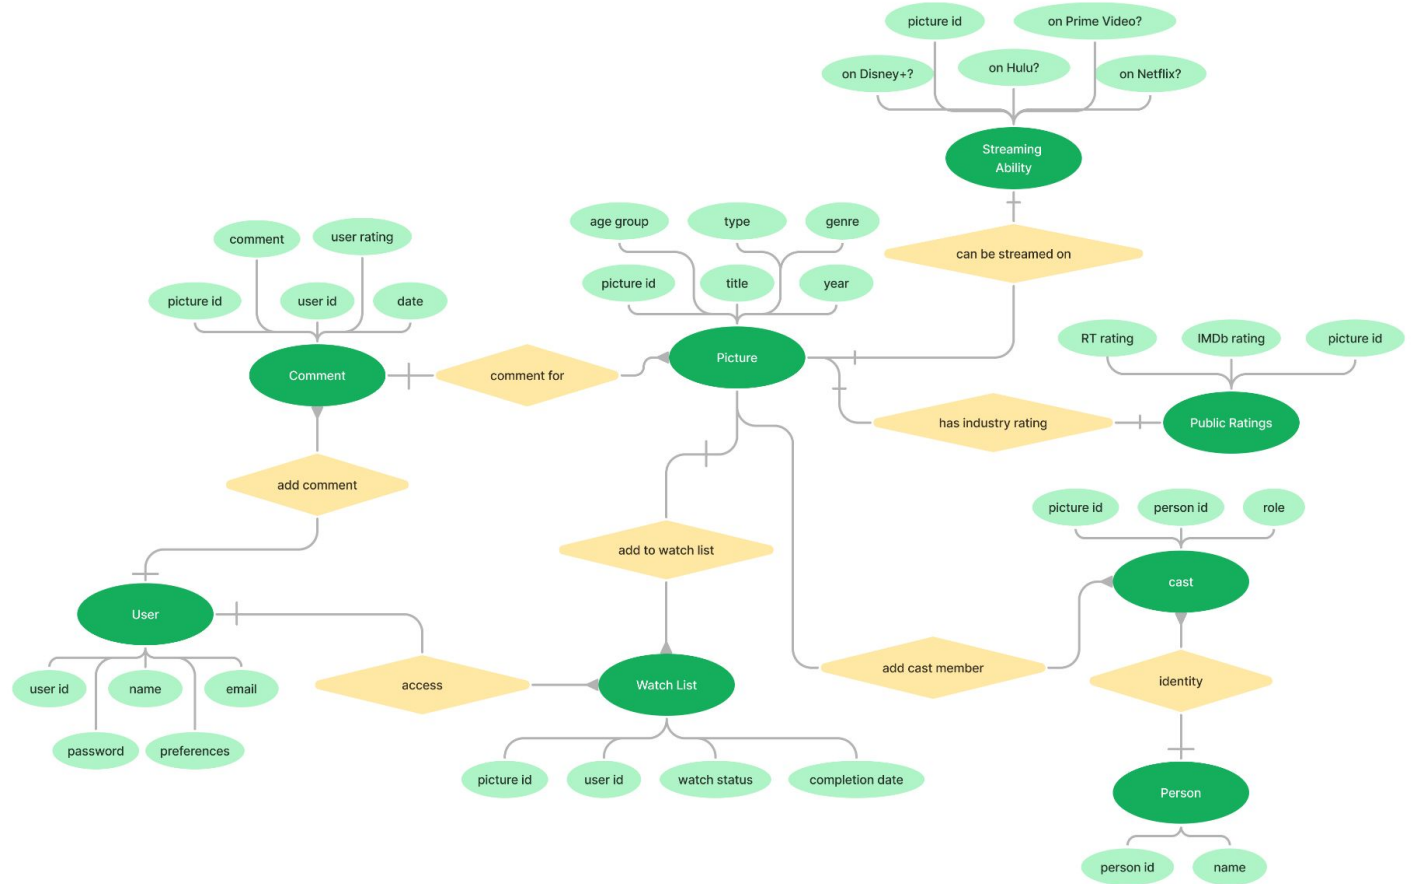

Project Requirements

Streaming Sites:Media Watch List

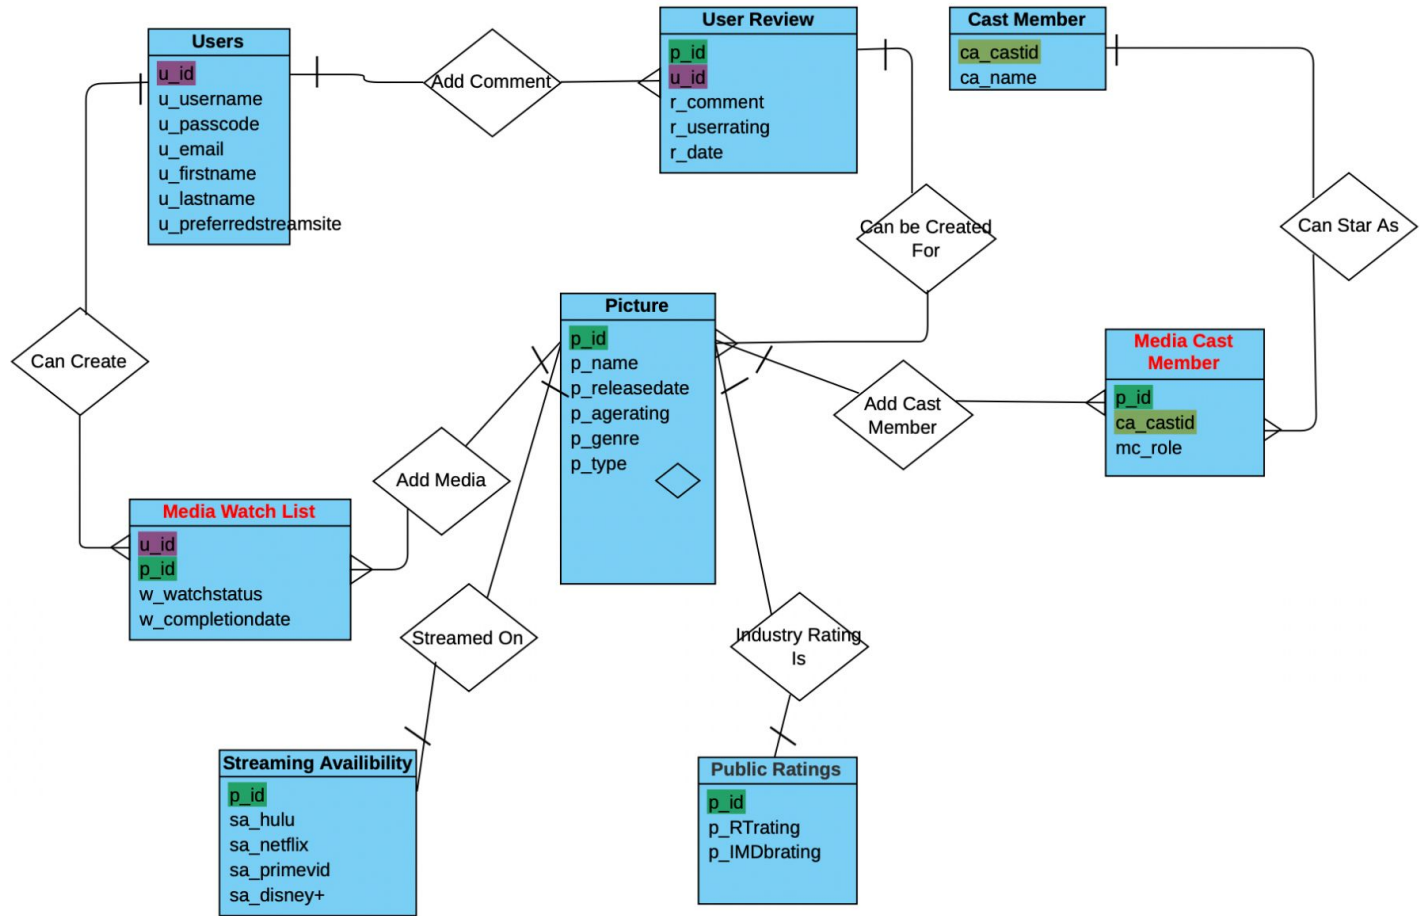

- A website in which anonymous users can use the search function to find an existing TV show or movie within database of various media on streaming sites Hulu, Netflix, Amazon-Prime, and Disney+, then retrieve various information about that media such as release date, genre, cast, ratings, type, which streaming sites etc.
- Also has an account creation option for users to track media they've seen, plan to watch, or/and are going to watch, with ability to give a rating, comment their review, add watch-progress/completion date, as well as add their favorite cast member info
